Summary

Front-End Developer with 3+ years of experience building responsive, user-focused web applications using React, JavaScript, HTML, and CSS. Strong focus on clean UI, performance, and translating complex requirements into intuitive user experiences. Experienced working in agile teams to deliver production-ready solutions.

Work Experience

Shaw Almax Industries Ltd Software Developer (Front-End) (Nov 2023 – August 2025)

- Developed responsive web interfaces using React, JavaScript, HTML, and CSS, improving usability and consistency across applications
- Built reusable UI components to support scalable and maintainable front-end architecture
- Created wireframes and high-fidelity prototypes in Figma and Lunacy to guide development and align with user requirements
- Collaborated with cross-functional teams to troubleshoot issues, implement features, and enhance application performance
- Produced technical documentation to support development and project delivery

Scotiabank Velocity Associate – API Developer, Scotia Digital Platform Engineering APIM (May - August 2021)

- Developed and tested RESTful APIs using Postman based on project requirements
- Worked with enterprise API tools including Apigee, Edge Gateway, and API Microgateway

Scotiabank Velocity Associate – Software Developer, International Banking Technology (January - April 2020)

- Developed and updated web applications using JavaScript, HTML, and CSS
- Participated in full development lifecycle including requirements, testing, and deployment
